Subject: US 6 Bridges Design Build – Design Variances Approval

Dear Mr. Cutting

Attached please find a request for the approval of design variances for US 6 Bridges Design Build Project BR 0061-083. Based on our meeting on November 21, 2012, CDOT has prepared the Form 464 and Design Exception Paper 12-11-12 for your approval. The Form 464 described the substandard features within the project and Design Exception Paper 12-11-12 provided the detailed rationale for the design exceptions. If you need additional information, please contact Kevin Sullivan, the Project Director for this request at (303) 972-9112.

Sincerely,

Kevin Sullivan
Project Director
